

RISHAB KARIYA

Gandhidham, Gujarat | rishabkariya.github.io

PROFILE

B.Com graduate with a first-principles approach to analytical problem-solving and systems thinking, combined with AI-native workflows. Thorough understanding of full-cycle accounting, manufacturing costing, FP&A, shipping and freight analytics, and financial markets. Self-taught in Python, Excel, data pipelines, and currently developing proficiency in Power BI and other analytical tools.

PROJECTS

Shipping & Freight | React · Excel

- **Freight Rate & Margin Model** -- Freight forwarding P&L model forecasting revenue, variable costs, and profitability across scenarios, with breakeven, sensitivity analysis, and per-TEU unit economics for pricing and decision-making.
- **Import-Export Flow Visualizer** -- Interactive Incoterm-based shipment flow showing cost ownership, risk transfer, parties, and documents at each stage
- **Freight Forwarder Dashboard** -- Operational dashboard tracking shipment status, documentation tasks, route-level pricing, and gross profit
- **Exim documentation Tracker** -- Exim documentation tracking dashboard for monitoring shipment status, freight routes, compliance documents, transit progress, and operational bottlenecks.

Financial Modelling | Excel · NPV · Var

- **Machine Investment Model (in progress)** -- Capex decision model with cash flow forecasting, ROI, payback period, and sensitivity analysis
- **3-Statement + Cash Flow Model** -- Integrated 3 statement P&L, Balance Sheet, and Cash Flow with scenario analysis with dynamic linking
- **Investment Risk Dashboard** -- FAANG portfolio vs SPX benchmark; Beta, STDEV, Treynor ratio, VaR at 95% & 99% confidence

Dashboards & Automation | React · Recharts · Python · pandas

- **B2B CRM Dashboard** -- Lead quality, funnel health, and rep performance tracking across complex sales cycles
- **Strategy Backtest Dashboard** -- Crypto backtest tool with parameter heatmap, equity curve, drawdown chart, and rolling Sharpe
- **HR Analytics Dashboard** -- Attrition tracking, hiring funnel efficiency, and early attrition pattern detection

WORK EXPERIENCE
